

CMH Site Travel Directions

Visitors / Contractors

1. Overview

This document outlines the directions and road use requirements for Coast Mountain Hydro (CMH), also known as “Forrest Kerr.”

Note: all roads after Highway 37 are radio controlled – **all road use rules must be followed.**

Location of CMH Camp

Visitors / Contractors

2. Directions

CMH is located approximately 450 km north of Terrace BC, with road access provided via the Eskay Creek Mine Road.

Written directions and maps are provided in the following sections.

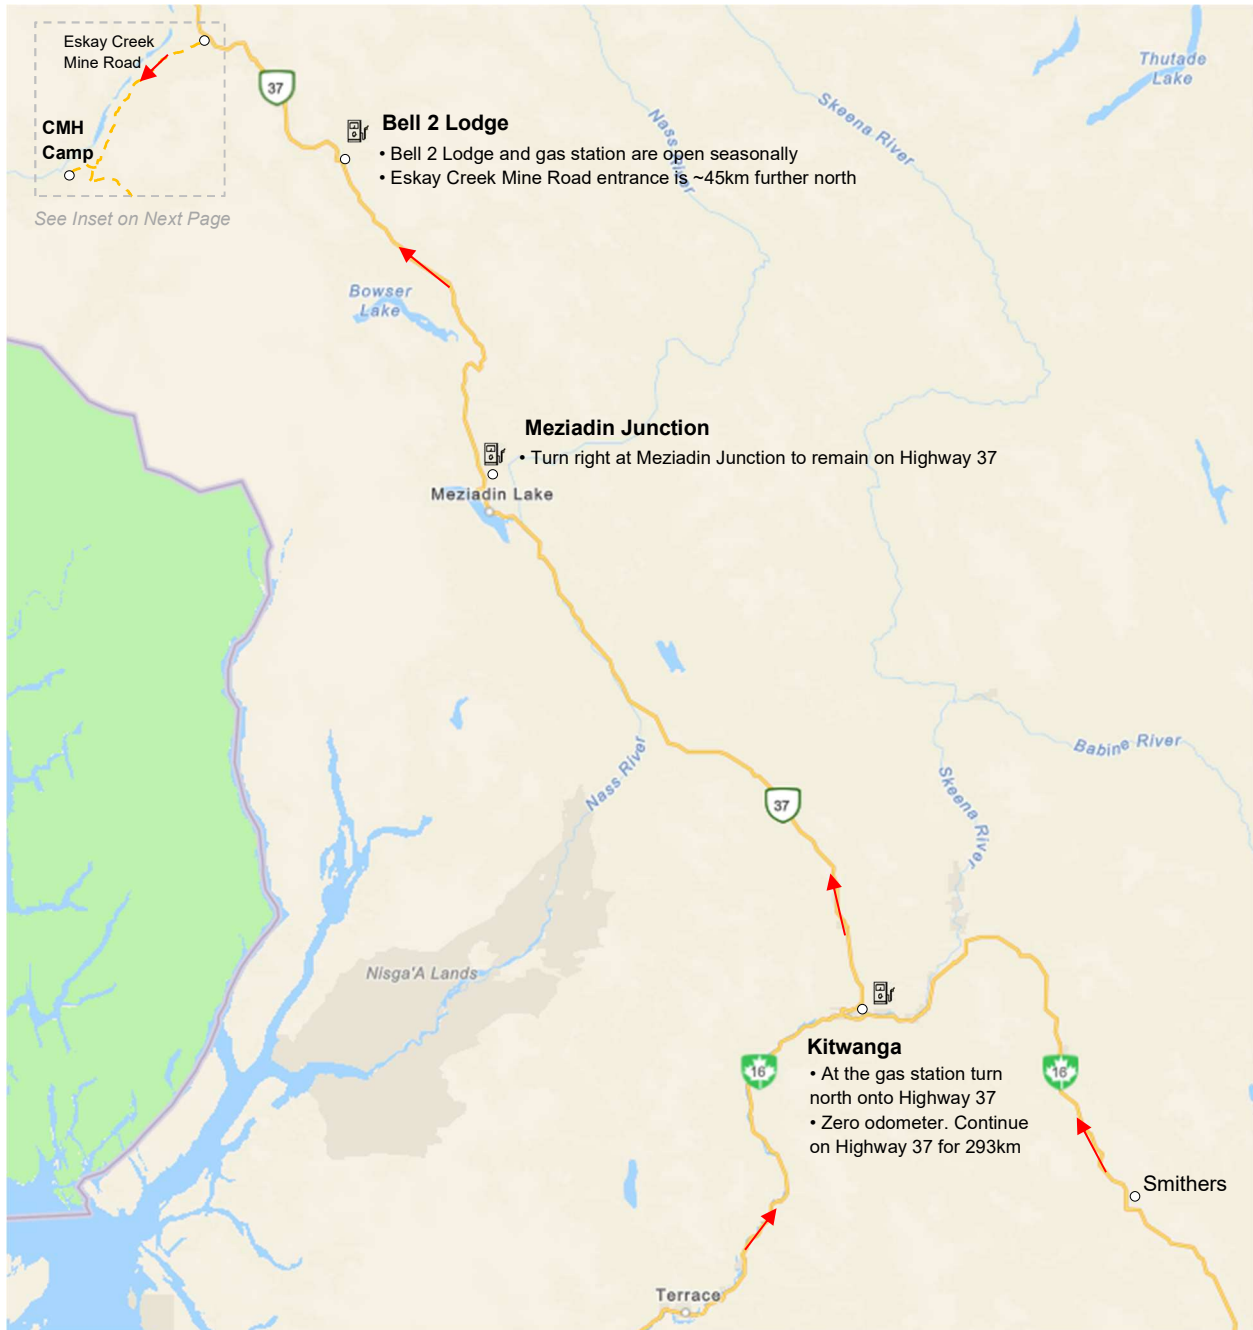

2.1. Highway 16 and Highway 37

1. From Highway 16, turn north onto Highway 37 at the Kitwanga gas station.
2. Continue north to Meziadin Junction, then turn right at the gas station to remain on Highway 37.
3. Continue on Highway 37 past Bell 2 – the entrance to Eskay Creek Mine Road is approximately 45km past Bell 2.
 - Bell 2 Lodge is easily noted from the highway.
 - The entrance to Eskay Creek Mine Road has a large sign which reads “ALTAGAS NORTHWEST PROJECTS.” GPS coordinates are: 56° 57' 43" North, 130° 14' 30" West.

Travel Route – from Highway 16 to CMH Camp

2.2. Eskay Creek Mine Road

VHF Channel: **Eskay TT** (Frequency 165.465)

Directions

1. Continue on Eskay Creek Mine Road to the security gate at 2km. The security staff will unlock the gate and record your license plate, name(s) and travel destination.
2. Continue to 37.5 km – you will see a large sign for the Northwest Hydroelectric Projects on the right. Turn right onto Forrest Kerr Road and change radio channels.

2.3. Forrest Kerr Road

VHF Channel: **LAD1** (Frequency 154.100)

Directions

1. Continue to 7km on Forrest Kerr Road, at which point you will reach the CMH Camp.
 - Continue through the cattle guard to the main parking lot - park on the right side.
 - **DO NOT ENTER THE CAMP BUILDINGS.** Contact our operations team on VHF channel **ALTA RPTR** (RX: 165.555 TX: 170.535) – our site medic will conduct a COVID health check prior to entry to camp.
 - GPS coordinates for the camp are: 56° 57' 43" North, 130° 14' 30" West

3. Appendix

Radio Procedures

- **Vehicles must obey all road signs and call all kilometers.** Eskay Creek Mine Road and Forrest Kerr Road are radio controlled, with active industrial traffic 24 hours per day.
- Vehicles must have a vehicle-mounted VHF radio with the appropriate channels pre-programmed. If you do not have a radio, you can borrow a handheld CMH radio from the gate security staff at 2km. This radio must be returned to gate security upon departing site.
- Radio Calling Protocols:
 - a. Upon entering Eskay Creek Mine Road you must call **“(vehicle type) on and in at 0 km”**
 - b. While traveling on Eskay Creek Mine Road you must call **“(vehicle type) (direction) at (km marker)”**. Direction of travel is IN when traveling to camp, OUT when leaving camp.
 - c. When changing roads/channels, you must call **“(vehicle type) clear at (km marker), switching to (new channel).”**

| <u>Examples (traveling in)</u> | <u>Examples (traveling out)</u> |
|--|---|
| <i>“Pickup on and in at 0km”</i> | <i>“Pickup on and out at 7km”</i> |
| <i>“Pickup in at 14km”</i> | <i>“Pickup clear at 0km, switching to Eskay TT”</i> |
| <i>“Pickup clear at 37.5km switching to LAD 1”</i> | <i>“Pickup on and out at 37.5km”</i> |
| <i>“Pickup on and in at 0km”</i> | <i>“Pickup out at 36km”</i> |
| <i>“Pickup clear at 7km”</i> | <i>“Pickup clear at 0km”</i> |

Radio Channels

| Name | Frequency | | Where to Use |
|-------------------------|-----------|----------|-------------------------------------|
| | Receive | Transmit | |
| Eskay TT | 165.465 | | Eskay Creek Mine Road (0 to 37.5km) |
| LAD 1 | 154.100 | | Forrest Kerr Road (0 to 7km) |
| AltaGas Repeater | 165.555 | 170.535 | EVERYWHERE – Camp Communications |
